

NYMEX NATURAL GAS  
(nearest futures continuation)

NG1 **3.730** +.038  
At 8:27 d Vol 7093

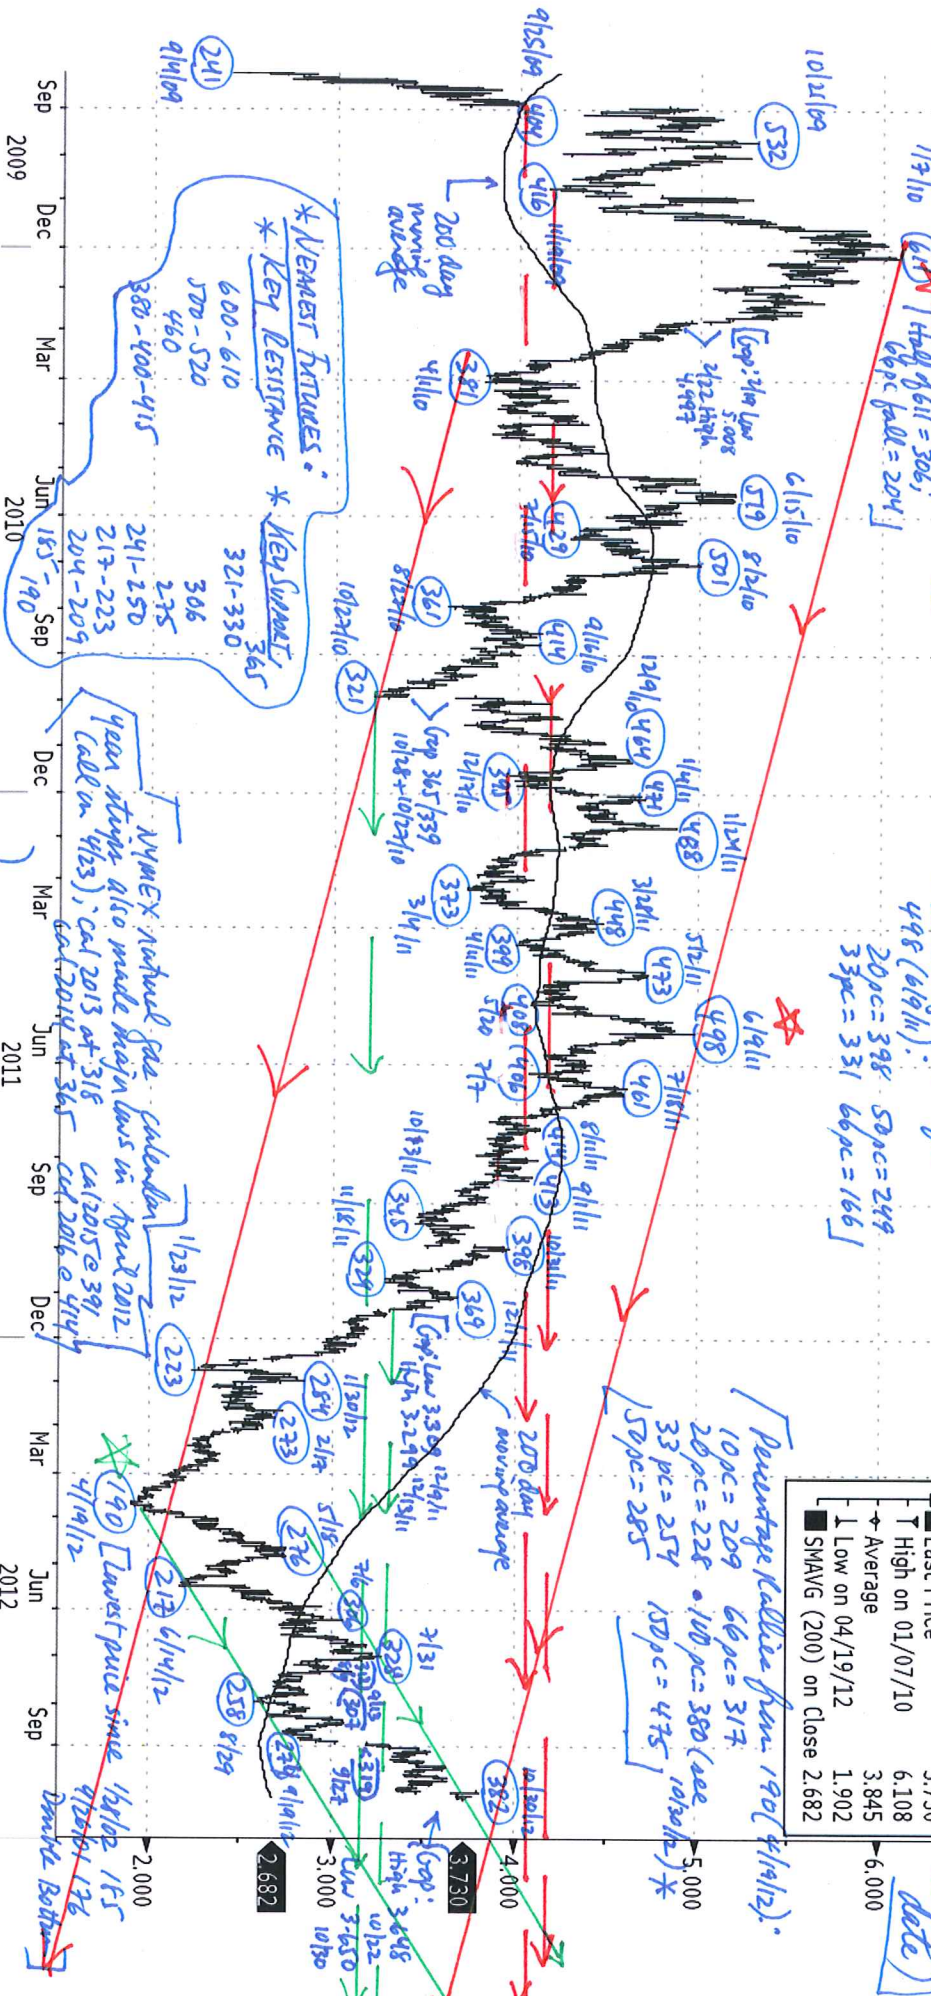

Major Bull trend continues, testing major resistance at 380/415. Through market may edge up further with test 380/415 range in the near term, longs should reduce positions & get out now.   
partially will do so over the longer term, longs should reduce positions & get out now.   
Hand book to go
