 Mov. Avgs 200 USD

Many key marketplace turns in emerging marketplaces "in general" and the STP 500 have occurred around the same time. However, the bear trend in emerging market marketplaces, since spring 2011 is a warning sign to the ongoing STP 500 but trend (412/13 high).

From Leo Harland 4/9/13
 646-295-8385

Also, the MXEF has not even edged very close to its 2007 peak, and its January 2013 high @ 1083 did not surpass its 2/29/12 one at 1085.
